URGENT:

Budget Proposal Threatens MHSA Funds

At this time, we have a matter of great urgency. The Governor is proposing placing Proposition 63 on the ballot again in June in order to allow for the supplantation of funds from the Mental Health Services Act to cover existing mental health services. We only have until March 1 when the legislature's special session ends and we need continued family member and consumer support to fight this proposal. Please go to the state NAMI web site, www.namicalifornia.org for more information.
